JASON SULLIVAN

2025 Gervais St, Columbia, SC 29204   jasonandrewsullivan@gmail.com   github.com/jsull123   704-576-9081

Current computer science student with a strong work ethic, attention to detail, and a passion for coding. Seeking a career in the computer science field, preferably in the development of software applications.

Skills:

- Languages: Proficient in Java and C++, familiar with Python, C, C#, and JavaScript
- IDEs: Microsoft Visual Studio, Visual Studio Code, PyCharm, and Eclipse
- Adobe After Effects: Video editing and plug-in development
- Web service development experience using Spring-Boot for Java and REST controller

Projects:

- EZOPS Infra Dashboard
    - Utilizes Spring Boot and AWS SDK. Allows management of AWS instances across multiple accounts.
- After Effects General Plug-in
    - Using the After Effects SDK, C++, and JavaScript; the plug-in adds additional features to cater to my specific preferences and enhance my individualized workflow. More info on GitHub.

Work Experience:

- EZOPS Internship – Summer 2023
    - Managed AWS infrastructure at EZOPS ensuring cost efficiency by shutting down unused instances daily. Developed a dashboard for AWS instances enabling streamlined management across multiple Amazon accounts enhancing operational efficiency.
- Camp Lake James, Jun – Aug 2021, Kitchen Operations Staff
    - Assisted in all kitchen operations for resort community canteen restaurant
- Smashburger, Jun 2020 – May 2021, Restaurant Operations Staff
    - Prepped and supplied kitchen, shift leader for cooking, took customer orders, maintained dining room
- YMCA, Aug 2019 – May 2020, Staff Counselor
    - Served as staff counselor overseeing various youth programs
    - Taught, mentored, and supervised kids on various YMCA program and recreational activities

Education:

- University Of South Carolina – Columbia, SC
    - Computer Science Major – Spring 2025
- Ardrey Kell High School, Charlotte, NC
